**The Cause: help victims of sexual violence in conflict territories.**

It's a war within a war.

One in five women worldwide is raped or otherwise sexually abused in their lifetime.

In conflict areas, sexual violence is used as a weapon, to humiliate the enemy, with catastrophic consequences on the victim's physical and mental health.

Often excluded from their community, surrounded by shame, victims also suffer social and economic consequences.

Still, they are the ones who will have to take care of their families, their children, their homes, after everything around them has fallen to pieces.

The **Red Cross** provides shelter, medical care and psychological counselling, but is also committed to giving these women hope for a future, for example through fundings and training.

The Red Cross provides information to the public, the police and armed forces about the consequences of sexual violence, to prevent the victims from being expelled from the community, and to help decrease sexual abuse during war and conflict.

Each year, **3FM** - one of Netherlands biggest radios - organises "**Serious Request**" a large-scale charity event in the country, managing to successfully raise funds for the Red Cross to intervene for different causes. The event takes place from December 18th to December 24th, when some of the most famous DJ's and personalities of the country broadcast live 24h from a "glass house" in the main square of a dutch town.
